LETTER OF DEFICIENCY #WSEB 03-176
Certified Mail #7099 3400 0003 0691 0690

Mr. Rob Drye
Plainfield Village Water District
Box 3, 1136 Route 12A
Plainfield, New Hampshire 03781

Subject: Plainfield - Public Water System: Plainfield Village Water District
(EPA #1921010)

Dear Mr. Drye:

The records of the NH Department of Environmental Services (DES) show that Plainfield Village Water District water system is classified as a public water system (PWS), as defined by RSA 485:1-a. A PWS is defined as any water system supplying 15 or more services, or 25 or more people for 60 or more days per year. As such, the water system owner is required to submit chemical samples according to the system's established sampling schedule to the State laboratory or a State-certified laboratory in compliance with NH Administrative Rule Env-Ws 326. Pursuant to Env-Ws 351, the failure to submit a chemical sample within the assigned sampling quarter requires that public notice of such failure be given to all consumers.

DES records show that the subject water system failed to submit the following chemical sample results for sample site *501, Dep Tap/Pumphouse/001*, for the following monitoring period (calendar quarter).

Quarter 4 – 2002

Inorganic Chemicals (IOC) Synthetic Organic Compounds (SOC) Volatile Organic Compounds (VOC) Radiological (RAD) and Nitrate

As a result of the failure to submit the above-described sample, a Notice of Violation (NOV), dated **March 5, 2003**, was sent to you (copy enclosed). The NOV requested that you immediately submit the above-described samples as a make-up samples. To date, DES has not received the make-up sample results, thus placing the water system in violation of Env-Ws 326. In addition, the NOV requested you to perform public notice concerning the sampling violations. To date, no proof of public notice has been received by DES, thus placing the water system in violation of Env-Ws 351.

DES believes the monitoring/reporting deficiencies can be addressed by taking the following actions:

1. **By August 7, 2003**, submit the IOC, RAD, SOC, VOC and Nitrate samples as "make-up samples" to the State laboratory or a State-certified laboratory. Please use the enclosed analysis result form when submitting the samples to your laboratory.
2. **By August 14, 2003**, provide public notice of the failure to submit the Quarter 4 – 2002 required samples, as specified on the enclosed form; and
3. **By August 28, 2003**, provide proof of public notice to DES, as specified on the enclosed form.

In the event compliance is not achieved within this period, DES may take further enforcement action. These actions include issuing an order requiring the deficiencies to be corrected, initiating an administrative fine proceeding, and/or referring the matter to the NH Department of Justice for imposition of appropriate penalties.

Please note that submission of the 2002 "make-up samples" does not relieve you of your obligation to submit 2003 samples during the fourth quarter (October - December).

The proof of public notice as requested above should be addressed as follows or faxed to (603) 271-5171:

Jeanne D. Lawson
Department of Environmental Services
Water Supply Engineering Bureau
6 Hazen Drive, PO Box 95
Concord, NH 03302-0095

Please contact Jeanne Lawson at (603) 271-6703 or by email at jlawson@des.state.nh.us, if you have any questions regarding this letter.

Sincerely,

Anthony P. Giunta, P.G., Administrator
Water Supply Engineering Bureau
